

GBODIMOWO ISAAC

Software Engineer & Network Systems Specialist | Lagos, Nigeria

Email: isaacgbodimowo@gmail.com | Portfolio: <https://kiinnggss.github.io/isaac-portfolio/>

PROFESSIONAL SUMMARY

Software Engineer with dual expertise in scalable web architectures and enterprise network systems. Proven track record engineering Next.js platforms, multi-VLAN Cisco Packet Tracer topologies, HSRP gateway redundancy, static/dynamic NAT translation, and CompTIA A+ systems diagnostics.

EDUCATION & CREDENTIALS

- B.Sc. in Computer Science - Babcock University
- CompTIA A+ Certified - Hardware & Systems Diagnostics Core
- New Horizons Technical Certification - Systems & Networking
- Cisco CCNA 200-301 Candidate

FEATURED PROJECTS & SYSTEMS

1. CAR PULL - Peer-to-Peer Transit & Carpooling
High-congestion distributed commuter ridesharing architecture for metropolitan Lagos
2. High-congestion distributed commuter ridesharing architecture for metropolitan Lagos
Multi-VLAN Cisco Packet Tracer infrastructure with HSRP high availability and ACL defense
3. Enterprise Network Simulation & Defense Topology
Full-stack client web solutions, data intake portals, and CMS workflows built during internship
4. Multi-VLAN Cisco Packet Tracer infrastructure with HSRP high availability and ACL defense

TECHNICAL MATRIX

- Networking: Cisco IOS, VLANs & Trunking, HSRP v2, NAT/PAT, ACLs, Subnetting, Packet Tracer
- Software: Next.js 16, React 19, TypeScript, Python, Java, REST APIs, Tailwind CSS, SQLite/Postgres
- Hardware & Tools: CompTIA A+ diagnostics, PC assembly, Linux/Unix shell, Git/GitHub, Canva
