

GBODIMOWO ISAAC

Software Engineer & Network Systems Specialist | Lagos, Nigeria

Email: isaacgbodimowo@gmail.com | Portfolio: <https://isaacgbodimowo.dev>

PROFESSIONAL SUMMARY

Software Engineer with dual expertise in distributed web architecture and enterprise network systems. Proven track record architecting high-performance Next.js systems, Cisco multi-VLAN enterprise topologies, HSRP gateway failover, static/dynamic NAT translation, and CompTIA A+ hardware diagnostics.

EDUCATION & CREDENTIALS

- B.Sc. in Computer Science - Babcock University
- CompTIA A+ Certified - Hardware & Systems Diagnostics Core
- New Horizons Technical Certification - Systems & Networking
- Cisco CCNA 200-301 Candidate

FEATURED PROJECTS

1. CAR PULL - Peer-to-Peer Commuter Transit & Carpooling Platform
Stack: Next.js, TypeScript, Tailwind CSS, Geospatial Indexing, PostgreSQL
Features: Real-time corridor matching, 4-tier fare split heuristics, Lagos arterial optimization.
2. Enterprise Network Simulation & Defense Topology
Stack: Cisco Packet Tracer, Cisco IOS CLI, CCNA 200-301 Architecture
Features: Router-on-a-Stick (802.1Q), HSRP v2 failover (<3s), NAT overload, Extended ACLs.
3. Client Web Platforms & Enterprise Business Portals - Hoffenheim Tech
Stack: React, Next.js, Node.js, REST APIs, Tailwind CSS, PostgreSQL

TECHNICAL MATRIX

- Networking: Cisco IOS, VLANs & Trunking, HSRP, NAT/PAT, ACLs, Subnetting, Packet Tracer
- Software: TypeScript, Next.js, React 19, Python, Java, REST APIs, Tailwind CSS, SQLite/PostgreSQL
- Systems & Hardware: CompTIA A+ diagnostics, PC assembly, macOS Terminal, Linux shell, Git
